- A-CAM**
during avian embryogenesis: DUBAND AND OTHERS 325
- Acetylcholinesterase**
segmental CNS development in zebrafish: HANNEMAN AND OTHERS 49
- Actin**
filaments in living *Drosophila* embryos: KELLOGG, MITCHISON & ALBERTS 675
- Adaptation**
craniofacial growth: GANS **Supplement 3**
- Adenosine**
dormancy in starfish blastulae: TSUCHIMORI AND OTHERS 345
regulation of *Dictyostelium* differentiation: WILLIAMS 1
- Adherens junction**
during avian embryogenesis: DUBAND AND OTHERS 325
- Adhesion**
cell
role in neural crest cell migration: TUCKER AND OTHERS **Supplement 81**
mechanisms in retina and cell sorting: THOMAS & YANCEY 37
- Ambystoma mexicanum**
embryo
fibronectin and tenascin along neural crest migratory pathways: EPPERLEIN, HALFTER & TUCKER 743
- Ameboid movement**
in honeybee morphogenesis: FLEIG & SAUNDERS 525
- Amelogenesis**
and neural crest cells: LUMSDEN **Supplement 155**
- Ammonia**
regulation of *Dictyostelium* differentiation: WILLIAMS 1
- AMP**
cyclic
regulation of *Dictyostelium* differentiation: WILLIAMS 1
- Androgenone**
chromosomal determinants and mouse development: SURANI AND OTHERS 171
- Aneurogenic limb**
Pleurodeles regeneration: FEKETE & BROCKES 567
- Animal model**
craniofacial malformations: SULIK, COOK & WEBSTER **Supplement 213**
- Ankyloglossia**
molecular genetics used to detect craniofacial abnormalities: MOORE AND OTHERS **Supplement 233**
- Antibody**
homeotic and segmentation gene expression in *Drosophila*: DURA & INGHAM 733
mouse NGF
inhibition of avian neurone development: ROHRER AND OTHERS 545
to glycine, characterization of *Xenopus* commissural interneurons: ROBERTS AND OTHERS 447
- Apis mellifera**
larva
embryonic cell movements: FLEIG & SAUNDERS 525
- Asterina pectinifera**
blastulae
adenosine-induced dormancy: TSUCHIMORI AND OTHERS 345
- Attractant field**
neurone-sensory cell interaction during otic development: VAN DE WATER **Supplement 185**
- Avian embryo**
fate map of cephalic neural primordium: COULY & LE DOUARIN **Supplement 101**
interactions and fates of craniofacial mesoderm: NODEN **Supplement 121**
neural crest cell migration: TUCKER AND OTHERS **Supplement 81**
- Axis**
elongation in carrot embryo: SCHIAVONE 657
- Axolotl**
limb
specific reinnervation: WILSON, JESANI & HOLDER 365
- Axon**
neurone development in trigeminal system: DAVIES **Supplement 175**
- Basal lamina**
neural tube development in mouse and chick: MARTINS-GREEN 687
- Biomineralization**
skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231
- Blastema**
regeneration of aneurogenic limbs: FEKETE & BROCKES 567
- Blastocyst**
marsupial
DNA methylation: STEVENS AND OTHERS 719
- Blastomere**
mouse
cell contact and division plane: PICKERING AND OTHERS 353
- Blastula**
starfish
adenosine-induced dormancy: TSUCHIMORI AND OTHERS 345
- Blood**
vessels
interactions and fates of avian craniofacial mesoderm: NODEN **Supplement 121**

function in gastrulation: HARDIN & KELLER 211
- BrdU (See Bromodeoxyuridine)**
- Bromodeoxyuridine**
used to study proliferation and cell lineages: PLICKERT & KROIER 791

Caenorhabditis elegans

mutant expression of male copulatory bursa surface markers: LINK, EHRENFELS & WOOD 485

Calcium

and adhesion mechanisms in chick retina: THOMAS & YANCEY 37

skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231

Carrot**embryo**

detection of specific proteins: RACUSEN & SCHIAVONE 665

microamputation, axis elongation and root regeneration: SCHIAVONE 657

Catecholamine

in hydrozoan planulae: KOLBERG & MARTIN 249

Cautery

pattern formation in *Ephestia* wing: TOUSSAINT & FRENCH 707

Cell**adhesion**

role in neural crest cell migration: TUCKER AND OTHERS **Supplement 81**

molecules during avian embryogenesis: DUBAND AND OTHERS 325

affinity

gradients in *Drosophila* wing blade: RIPOLL AND OTHERS 757

-cell communication

in early *Xenopus* larvae: GUTHRIE, TURIN & WARNER 769

contact

and division plane in mouse blastomere: PICKERING AND OTHERS 353

culture

multipotency of pineal cells: WATANABE AND OTHERS 17

cycle

events in *Xenopus* cell-free extracts: HUTCHISON, COX & FORD 553

vertebrate segmentation: KEYNES & STERN 413

death

teratogens and craniofacial malformations: SULIK, COOK & WEBSTER **Supplement 213**

ingression

skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231

lineage

morphogenesis of head and face: WEDDEN **Supplement 61**

spicule-forming cells in sea urchin: WRAY & McCLAY 305

studied using BrdU in hydroids: PLICKERT & KROIHER 791

vertebrate segmentation: KEYNES & STERN 413

locomotion

in honeybee morphogenesis: FLEIG & SAUNDERS 525

marker

analysis of chick germ line development: URVEN AND OTHERS 299

positional homologies in *Drosophila* wings: SIMPSON AND OTHERS 391

migration

role in neural crest cell migration: TUCKER AND OTHERS **Supplement 81**

skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231

movement

somite formation in mouse: TAM 379

polarity

and division plane in mouse: PICKERING AND OTHERS 353

proliferation

in chick embryo otic vesicle in culture: REPRESSA AND OTHERS 87

kinetics and metamorphosis in *Hydractinia*: PLICKERT, KROIHER & MUNCK 795

studied using BrdU: PLICKERT & KROIHER 791

sorting

in chick retina: THOMAS & YANCEY 37

-substratum adhesion

inhibition of myoblast migration in chick embryo: JAFFREDO AND OTHERS 431

Central nervous system

vertebrate segmentation: KEYNES & STERN 413

Cephalization

craniofacial growth: GANS **Supplement 3**

Chemotaxis

control of pathfinding by neural crest: ERICKSON **Supplement 63**

Chick**embryo**

A-CAM during embryogenesis: DUBAND AND OTHERS 325

analysis of germ line development: URVEN AND OTHERS 299

cell proliferation activation in otic vesicle: REPRESSA AND OTHERS 87

collagen secretion in cornea: HAYASHI AND OTHERS 27

guidance of motor axons in duplicated limbs: STIRLING & SUMMERBELL 97

inhibition of myoblast migration: JAFFREDO AND OTHERS 431

neural tube development: MARTINS-GREEN 687

pattern formation in facial primordia: WEDDEN, RALPHS & TICKLE **Supplement 31**

pepsinogen gene transcription: HAYASHI, YASUGI & MIZUNO 725

retinal adhesion mechanisms: THOMAS & YANCEY 37
retinoid metabolism in limb bud: THALLER & EICHELE 497

somite contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69

limb bud

collagen mRNAs: DEVLIN AND OTHERS 111

muscle

chondroitin sulphate proteoglycan synthesis: CARRINO AND OTHERS 641

- Chick-quail**
 chimaera
 somite contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69
- Chimaera**
 chick-quail, somite contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69
 mouse
 cell renewal in crypt-villus unit: SCHMIDT, WINTON & PONDER 785
 chromosomal determinants and mouse development: SURANI AND OTHERS 171
- Chondrogenesis**
 pattern formation in facial primordia: WEDDEN, RALPHS & TICKLE **Supplement 31**
 specification of vertebrate skull: THOROGOOD **Supplement 141**
- Chondroitin sulphate**
 proteoglycan synthesis in regenerating muscle: CARRINO AND OTHERS 641
- Chromosomal determinants**
 influence on mouse development: SURANI AND OTHERS 171
- Cleft palate**
 detection by molecular genetics: MOORE AND OTHERS **Supplement 233**
 discussion of causes: JOHNSTON **Supplement 241**
 formation in mouse embryonic salivary gland: FUKUDA AND OTHERS 259
- 'Clock and wavefront' model**
 vertebrate segmentation: KEYNES & STERN 413
- Cnidaria**
 catecholamines in hydrozoan planulae: KOLBERG & MARTIN 249
- Collagen**
 and salivary gland epithelial branching: FUKUDA AND OTHERS 259
 in developing cornea: BARD, BANSAL & ROSS **Supplement 195**
 mRNAs in chick limb bud: DEVLIN AND OTHERS 111
 secretion in cornea: HAYASHI AND OTHERS 27
- Collagenase**
 interstitial and salivary gland epithelial branching: FUKUDA AND OTHERS 259
- Collagen IV**
 neural tube development in mouse and chick: MARTINS-GREEN 687
- Commissural interneurone**
 characterization in *Xenopus*: ROBERTS AND OTHERS 447
- Communication**
 junctional in early *Xenopus* larvae: GUTHRIE, TURIN & WARNER 769
- Convergence**
 and extension in *Xenopus* gastrulation: KELLER & DANILCHIK 193
- Cornea**
 chick
 collagen secretion: HAYASHI AND OTHERS 27
 extracellular matrix: BARD, BANSAL & ROSS **Supplement 195**
- Cranial kinesis**
 craniofacial growth: GANS **Supplement 3**
- Craniofacial development** (See **Supplement volume**)
- Craniofacial malformation**
 and cell death: SULIK, COOK & WEBSTER **Supplement 213**
- Craniosynostosis**
 aetiology and pathogenesis of craniofacial deformities: POSWILLO **Supplement 207**

 -villus unit in mouse intestine: SCHMIDT, WINTON & PONDER 785
- CSAT hybridoma**
 inhibition of myoblast migration in chick embryo: JAFFREDO AND OTHERS 431
- Cuticle**
 expression of male copulatory bursa surface markers in *Caenorhabditis*: LINK, EHRENFELS & WOOD 485
- Cyclic AMP**
 and prepore differentiation in *Dictyostelium*: WANG, VAN DRIEL & SCHAAP 611
 regulation of *Dictyostelium* differentiation: WILLIAMS 1
- Cytoplasm**
 microinjection
 and maturation of starfish oocytes: PICARD, LABBÉ & DORÉE 575
- Cytoplasmic determinant**
 polar granules in *Drosophila* egg: HAY AND OTHERS 625
- Cytoplasmic localization**
 of proteins in mouse embryo: HOWLETT AND OTHERS 129
- Cytoskeleton**
 after fertilization in *Xenopus*: RESSOM & DIXON 507
 in living *Drosophila* embryos: KELLOGG, MITCHISON & ALBERTS 675
 vimentin expression in *Xenopus*: TANG AND OTHERS 279
- DBA** (See *Dolichos biflorus* agglutinin)
- Decondensation**
 in *Xenopus* cell-free extracts: HUTCHISON, COX & FORD 553
- Deformity**
 craniofacial, aetiology and pathogenesis: POSWILLO **Supplement 207**
- Delamination**
 neural tube development in mouse and chick: MARTINS-GREEN 687
- Determination Wave model**
 pattern formation in *Ephesia* wing: TOUSSAINT & FRENCH 707
- Developmental mutation**
Small eye (Sey) in mouse: HOGAN AND OTHERS **Supplement 115**
- Dictyostelium discoideum***
 prepore
 differentiation and cyclic AMP: WANG, VAN DRIEL & SCHAAP 611
 -specific gene, repression by DIF: EARLY & WILLIAMS 519
 regulation of differentiation: WILLIAMS 1

Dicyanoargentate

- junctional communication in early *Xenopus* embryos:
GUTHRIE, TURIN & WARNER 769

DIF

- repression of *Dictyostelium* gene: EARLY & WILLIAMS 519

Differentiation

- Dictyostelium discoideum*: WILLIAMS 1
- Drosophila* neuronal antigen: PIOVANT & LÉNA 145

Differentiation Inducing Factor

- regulation of *Dictyostelium* differentiation: WILLIAMS 1

Diffusible molecule

- regulation of *Dictyostelium* differentiation: WILLIAMS 1

DIF (see Differentiation Inducing Factor)**Digestive tract**

- pepsinogen gene transcription in chick: HAYASHI, YASUGI & MIZUNO 725

Division

- plane and cell contact in mouse: PICKERING AND OTHERS 353

DNA

- methylation in marsupial embryo: STEVENS AND OTHERS 719
- molecular genetics used to detect craniofacial abnormalities: MOORE AND OTHERS **Supplement 233**
- replication
 - control by *Xenopus* egg extracts: HUTCHISON, COX & FORD 553
 - in transgenic zebrafish: STUART, McMURRAY & WESTERFIELD 403

***Dolichos biflorus* agglutinin**

- study of cell renewal in mouse intestine: SCHMIDT, WINTON & PONDER 785

Dormancy

- induced by adenosine in starfish blastulae: TSUCHIMORI AND OTHERS 345

Dorsalization

- and induction by growth factors and lithium in *Xenopus*: SLACK, ISAACS & DARLINGTON 581

Dorsal root ganglion

- inhibition of avian neurone development by mouse NGF antibody: ROHRER AND OTHERS 545

Drosophila melanogaster**antennapedia**

- used to isolate rat homeobox-containing gene: FALZON & CHUNG 601

- egg, a component of polar granules: HAY AND OTHERS 625

embryo

- behaviour of microtubules and actin filaments: KELLOGG, MITCHISON & ALBERTS 675
- control of homeotic and segmentation gene expression: DURA & INGHAM 733
- gene expression in segment polarity mutants: MARTINEZ ARIAS, BAKER & INGHAM 157
- wingless* transcripts in whole embryos: BAKER 289
- neuronal antigen: PIOVANT & LÉNA 145
- positional homologies in wings: SIMPSON AND OTHERS 391
- wing blade, sensory bristles: RIPOLL AND OTHERS 757

- yolk protein transcription: BOWNES, SCOTT & SHIRRAS 119

Dysostosis

- aetiology and pathogenesis of craniofacial deformities: POSWILLO **Supplement 207**

Ectopic myogenesis

- multipotency of pineal cells: WATANABE AND OTHERS 17

Egg***Drosophila***

- polar granules: HAY AND OTHERS 625

Xenopus

- extracts control DNA replication: HUTCHISON, COX & FORD 553

Eirene viridula

- metamorphosis, proliferation kinetics and cell lineages: PLICKERT & KROIHER 791

Electrophoresis

- two-dimensional
 - detection of specific proteins in single carrot embryos: RACUSEN & SCHIAVONE 665

EMA-1

- analysis of chick germ line development: URVEN AND OTHERS 299

Endothelial cell

- collagen secretion in cornea: HAYASHI AND OTHERS 27

Ephedrine

- catecholamines in hydrozoan planulae: KOLBERG & MARTIN 249

Ephestia kühniella

- wing
 - pattern formation: TOUSSAINT & FRENCH 707

Epidermal ectoderm

- neural tube development in mouse and chick: MARTINS-GREEN 687

Epigenesis

- patterning of head connective tissues: HALL **Supplement 171**

Epithelial cell

- collagen secretion in cornea: HAYASHI AND OTHERS 27

Epithelial edges

- free - migration in honeybee morphogenesis: FLEIG & SAUNDERS 525

Epitheliomesenchymal interaction

- craniofacial development: WOLPERT **Supplement 245**
- palate development: FERGUSON **Supplement 41**
- pepsinogen gene transcription in chick: HAYASHI, YASUGI & MIZUNO 725
- specification of vertebrate skull: THOROGOOD **Supplement 141**

Ethanol

- craniofacial malformation and cell death: SULIK, COOK & WEBSTER **Supplement 213**

Eucidaris tribuloides

- spicule-forming cells: WRAY & McCLAY 305

Evolution

- craniofacial growth: GANS **Supplement 3**

Expression

- gene
 - in *Drosophila* segment polarity mutants: MARTINEZ ARIAS, BAKER & INGHAM 157
 - of a neurofilament-M in *Xenopus*: SHARPE 269
- N-CAM during *Xenopus* myogenesis: KAY AND OTHERS 463
- of rat homeobox-containing gene: FALZON & CHUNG 601

Extension

- and convergence in *Xenopus* gastrulation: KELLER & DANILCHIK 193

Extracellular matrix

- cellular and molecular aspects of neural crest development: BEE & NEWGREEN **Supplement 95**
- control of pathfinding by neural crest: ERICKSON **Supplement 63**
- craniofacial development: WOLPERT **Supplement 245**
- fibronectin and tenascin along neural crest migratory pathways: EPPERLEIN, HALFTER & TUCKER 743
- neural tube development in mouse and chick: MARTINS-GREEN 687
- neurone-sensory cell interaction during otic development: VAN DE WATER **Supplement 185**
- palate development: FERGUSON **Supplement 41**

Eye

- extracellular matrix of cornea: BARD, BANSAL & ROSS **Supplement 195**
- mouse
 - in *Small eye* mutant: HOGAN AND OTHERS **Supplement 115**

Facial cleft

- aetiology and pathogenesis of craniofacial deformities: POSWILLO **Supplement 207**

Fate map

- avian
 - of cephalic neural primordium: COULY & LE DOUARIN **Supplement 101**

Fertilization

- Xenopus*
 - relocation of germ plasm: RESSOM & DIXON 507

Fetal somatomedin

- IGF-II gene expression in rat: STYLIANOPOULOU AND OTHERS 497

FGF (See Fibroblast growth factor)**Fibroblast growth factor**

- inductive effects on *Xenopus* blastula ectoderm: SLACK, ISAACS & DARLINGTON 581
- mesoderm induction in *Xenopus*: SMITH, YAQOUB & SYMES 591

Fibronectin

- and tenascin along neural crest migratory pathways: EPPERLEIN, HALFTER & TUCKER 743
- cellular and molecular aspects of neural crest development: BEE & NEWGREEN **Supplement 95**
- neural crest cell migration: TUCKER AND OTHERS **Supplement 81**
- neural tube development in mouse and chick: MARTINS-GREEN 687

Filopodia

- traction and gastrulation in sea urchin: HARDIN 317

Fluorescence

- junctional communication in early *Xenopus* embryos: GUTHRIE, TURIN & WARNER 769

Fluorescein

- junctional communication in early *Xenopus* embryos: GUTHRIE, TURIN & WARNER 769

Fluorescence microscopy

- behaviour of microtubules and actin filaments in *Drosophila*: KELLOGG, MITCHISON & ALBERTS 675
- catecholamines in hydrozoan planulae: KOLBERG & MARTIN 249

Fluorophore

- catecholamines in hydrozoan planulae: KOLBERG & MARTIN 249

Free epithelial edges

- migration in honeybee morphogenesis: FLEIG & SAUNDERS 525

Frontonasal mass

- pattern formation in facial primordia: WEDDEN, RALPHS & TICKLE **Supplement 31**

Functional morphology

- craniofacial growth: GANS **Supplement 3**

Galvanotaxis

- control of pathfinding by neural crest: ERICKSON **Supplement 63**

Gap

- junction
 - in *Xenopus* early embryo: GUTHRIE, TURIN & WARNER 769

Gastrulation

- and filopodial traction in sea urchin: HARDIN 317
- honeybee
 - cell movements: FLEIG & SAUNDERS 525

Xenopus

- convergence and extension: KELLER & DANILCHIK 193
- function of bottle cells: HARDIN & KELLER 211

Gene

- expression
 - IGF-II in rat: STYLIANOPOULOU AND OTHERS 497
 - in *Drosophila* segment polarity mutants: MARTINEZ ARIAS, BAKER & INGHAM 157
 - of a neurofilament-M in *Xenopus*: SHARPE 269
 - pepsinogen gene transcription in chick: HAYASHI, YASUGI & MIZUNO 725
- regulation
 - effect of nutrients on yolk protein gene transcription: BOWNES, SCOTT & SHIRRAS 119

Genomic imprinting

- chromosomal determinants and mouse development: SURANI AND OTHERS 171

Germ layer

- homeobox gene expression in mouse: GAUNT 135

Germ line

- chick
 - analysis of development: URVEN AND OTHERS 299
- polar granules in *Drosophila* egg: HAY AND OTHERS 625
- transformation in zebrafish: STUART, McMURRAY & WESTERFIELD 403

Germ plasm*Xenopus*

- after fertilization: RESSOM & DIXON 507
- vimentin expression: TANG AND OTHERS 279

Glycine

- characterization of *Xenopus* commissural interneurons: ROBERTS AND OTHERS 447

Glycoprotein

- skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231

Gradient model

- pattern formation in *Ephestia* wing: TOUSSAINT & FRENCH 707

Grafting

microsurgical

- somite formation in mouse: TAM 379

Growth

cone

- characterization of *Xenopus* commissural interneurons: ROBERTS AND OTHERS 447

control

- in regenerating *Pleurodeles* limbs: FEKETE & BROCKES 567

- extracellular matrix of cornea: BARD, BANSAL & ROSS **Supplement 195**

factor

- cell proliferation in chick otic vesicle: REPRESSA AND OTHERS 87

HBGF and FGF inductive effects on *Xenopus*

- blastula ectoderm: SLACK, ISAACS & DARLINGTON 581

- IGF-II gene expression in rat: STYLIANOPOULOU AND OTHERS 497

- morphogenesis of head and face: WEDDEN

Supplement 61

- neurone development in trigeminal system: DAVIES **Supplement 175**

- NGF antibodies inhibit avian neurone development: ROHRER AND OTHERS 545

- palate development: FERGUSON **Supplement 41**

Haptotaxis

- control of pathfinding by neural crest: ERICKSON **Supplement 63**

HBGF (See Heparin-binding growth factor)**Heat-shock protein**

- mRNA levels in *Xenopus*: KRONE & HEIKKILA 59

Heparin-binding growth factor

- inductive effects on *Xenopus* blastula ectoderm: SLACK, ISAACS & DARLINGTON 581

Heterochronic mutation

- in *Caenorhabditis*: LINK, EHRENFELS & WOOD 485

Heterogeneity

- cellular and molecular aspects of neural crest development: BEE & NEWGREEN **Supplement 95**

Heterospecific grafting

- fate map of avian cephalic neural primordium: COULY & LE DOUARIN **Supplement 101**

Hindbrain

- segmental CNS development in zebrafish: HANNEMAN AND OTHERS 49

Homeobox

- containing gene in rat: FALZON & CHUNG 601

genes

- expression in mouse embryo: GAUNT 135
- stages of head development: ALBERCH & KOLLAR

Supplement 25

- vertebrate head: HOLLAND **Supplement 17**

- vertebrate segmentation: KEYNES & STERN 413

Homeotic gene

- control of expression in *Drosophila*: DURA & INGHAM 733

Hybridization*in situ*

- collagen mRNAs in chick limb bud: DEVLIN AND OTHERS 111

- collagen secretion in cornea: HAYASHI AND OTHERS 27

- IGF-II gene expression in rat: STYLIANOPOULOU AND OTHERS 497

- wingless* transcripts in whole *Drosophila* embryos: BAKER 289

Northern

- pepsinogen gene transcription in chick: HAYASHI, YASUGI & MIZUNO 725

Hybridoma

- inhibition of myoblast migration in chick embryo: JAFFREDO AND OTHERS 431

Hydra

metamorphosis

- proliferation kinetics and cell lineages: PLICKERT & KROIHER 791

Hydractinia echinata

metamorphosis

- cell proliferation: PLICKERT, KROIHER & MUNCK 795
- proliferation kinetics and cell lineages: PLICKERT & KROIHER 791

Hydrozoa

planula

- catecholamines: KOLBERG & MARTIN 249

Hymenoptera

- honeybee morphogenesis: FLEIG & SAUNDERS 525

Hyperthermia

- craniofacial malformation and cell death: SULIK, COOK & WEBSTER **Supplement 213**

Hypoxia

- craniofacial malformation and cell death: SULIK, COOK & WEBSTER **Supplement 213**

IGF-II (See Insulin-like growth factor II)**Imaginal disc**

- positional homologies in *Drosophila* wings: SIMPSON AND OTHERS 391

Immunohistochemistry

- collagen secretion in cornea: HAYASHI AND OTHERS 27

Immunolocalization

- morphogenesis of head and face: WEDDEN **Supplement 61**

Induction

interspecific nuclear transplantations in *Paramecium*:
CHAU & NG 179

in *Xenopus*

by growth factors and lithium: SLACK, ISAACS &
DARLINGTON 581
mesoderm by growth factor: SMITH, YAQOOB & SYMES
591

Inhibition

of myoblast migration in chick embryo: JAFFREDO AND
OTHERS 431

Inner ear

chick

cell proliferation activation: REPRESSA AND OTHERS
87

tissue interactions in development: VAN DE WATER
Supplement 185

Innervation

guidance of motor axons in duplicated chick limbs:
STIRLING & SUMMERBELL 97

Insect

wing

pattern formation in *Ephestia*: TOUSSAINT & FRENCH
707

In situ

hybridization

collagen mRNAs in chick limb bud: DEVLIN AND
OTHERS 111

collagen secretion in cornea: HAYASHI AND OTHERS
27

IGF-II gene expression in rat: STYLIANOPOULOU AND
OTHERS 497

wingless transcripts in whole *Drosophila* embryos:
BAKER 289

Insulin-like growth factor II

gene expression in rat: STYLIANOPOULOU AND OTHERS
497

Insulin receptor

Drosophila neuronal antigen: PIOVANT & LÉNA 145

Integrin

inhibition of myoblast migration in chick embryo:
JAFFREDO AND OTHERS 431

Interepithelial space

neural tube development in mouse and chick: MARTINS-
GREEN 687

Intermediate filaments

in *Xenopus*: SHARPE 269
TANG AND OTHERS 279

Interspecific transplantation

of nuclei in *Paramecium*: CHAU & NG 179

Interstitial collagenase

and salivary gland epithelial branching: FUKUDA AND
OTHERS 259

Intestine

mouse

cell renewal in crypt-villus unit: SCHMIDT, WINTON &
PONDER 785

Invagination

during *Xenopus* gastrulation: HARDIN & KELLER 211

In vitro

repression of *Dictyostelium* gene: EARLY & WILLIAMS
519

skeletogenesis in sea urchin embryo: DECKER &
LENNARZ 231

In vivo

inhibition of avian neurone development by mouse
NGF antibody: ROHRER AND OTHERS 545

Ion

movement

junctional communication in early *Xenopus* embryos:
GUTHRIE, TURIN & WARNER 769

Ionizing radiation

craniofacial malformation and cell death: SULIK, COOK &
WEBSTER **Supplement 213**

Junctional communication

in early *Xenopus* larvae: GUTHRIE, TURIN & WARNER 769

Juvenile hormone

effect on yolk protein gene transcription: BOWNES, SCOTT
& SHIRRAS 119

Laminin

neural tube development in mouse and chick: MARTINS-
GREEN 687

Laser ablation

filopodial traction and gastrulation in sea urchin:
HARDIN 317

L-CAM

neurone-sensory cell interaction during otic
development: VAN DE WATER **Supplement 185**

Lead EDTA

junctional communication in early *Xenopus* embryos:
GUTHRIE, TURIN & WARNER 769

Lens

placode

development in *Small eye* mouse mutant: HOGAN AND

MPF (see Maturation-promoting factor)**Multipotency**

- of quail pineal cells: WATANABE AND OTHERS 17

Muscle

- induction
 - by growth factors and lithium in *Xenopus*: SLACK, ISAACS & DARLINGTON 581
- interactions and fates of avian craniofacial mesoderm: NODEN **Supplement 121**
- skeletal
 - chondroitin sulphate proteoglycan synthesis: CARRINO AND OTHERS 641

Mutant

- engrailed* and *wingless* in *Drosophila*: MARTINEZ ARIAS, BAKER & INGHAM 157

Mov13

- extracellular matrix of cornea: BARD, BANSAL & ROSS **Supplement 195**

Myoblast

- migration inhibition in chick embryo: JAFFREDO AND OTHERS 431

Myogenesis

- Xenopus*
 - patterns of N-CAM expression: KAY AND OTHERS 463

Na⁺-H⁺ exchange

- cell proliferation in chick otic vesicle: REPRESSA AND OTHERS 87

Nasal placode

- mouse
 - development in *Small eye* mutant: HOGAN AND OTHERS **Supplement 115**

N-CAM

- expression during *Xenopus* myogenesis: KAY AND OTHERS 463
- neurone-sensory cell interaction during otic development: VAN DE WATER **Supplement 185**

Nerve

- growth factor
 - neurone development in trigeminal system: DAVIES **Supplement 175**
- antibodies to mouse NGF and avian neurone development: ROHRER AND OTHERS 545

Nervous system

- control of homeotic and segmentation gene expression in *Drosophila*: DURA & INGHAM 733

Neural cell adhesion molecule (see N-CAM)**Neural crest**

- avian
 - control of pathfinding: ERICKSON **Supplement 63**
- cephalic
 - cellular and molecular aspects: BEE & NEWGREEN **Supplement 95**
- extracellular matrix of cornea: BARD, BANSAL & ROSS **Supplement 195**
- initiation of mammalian tooth germ: LUMSDEN **Supplement 155**
- interactions and fates of avian craniofacial mesoderm: NODEN **Supplement 121**
- migratory pathways
 - fibronectin and tenascin: EPPERLEIN, HALFTER & TUCKER 743
- morphogenesis of head and face: WEDDEN **Supplement 61**
- pattern formation in facial primordia: WEDDEN, RALPHS & TICKLE **Supplement 31**
- patterning of head connective tissues: HALL **Supplement 171**

rat

- IGF-II gene expression: STYLIANOPOULOU AND OTHERS 497
- role in neural tube development in mouse and chick: MARTINS-GREEN 687
- specification of vertebrate skull: THOROGOOD **Supplement 141**

Neural development

- Drosophila*: PIOVANT & LÉNA 145
- vertebrate segmentation: KEYNES & STERN 413

Neural fold

- fate map of avian cephalic neural primordium: COULY & LE DOUARIN **Supplement 101**

Neural induction

- in *Xenopus*: SHARPE 269

Neural plate

- fate map of avian cephalic neural primordium: COULY & LE DOUARIN **Supplement 101**

Neuroepithelium

- neural tube development in mouse and chick: MARTINS-GREEN 687

Neurofilament-Mdevelopmental expression in *Xenopus*: SHARPE 269**Neurogenic population**cellular and molecular aspects of neural crest development: BEE & NEWGREEN **Supplement 95****Neuromere**

segmental CNS development in zebrafish: HANNEMAN AND OTHERS 49

Neuromuscular specificity

reinnervation of axolotl limb: WILSON, JESANI & HOLDER 365

Neurone

development in trigeminal system: DAVIES

Supplement 175

guidance of motor axons in duplicated chick limbs:

STIRLING & SUMMERBELL 97

sensory

inhibition of growth in mouse by mouse antibody:

ROHRER AND OTHERS 545

sensory cell interaction during otic development: VAN DE

WATER **Supplement 185*****Xenopus***

characterization of commissural interneurons:

ROBERTS AND OTHERS 447

Neurotransmitter

catecholamines in hydrozoan planulae: KOLBERG &

MARTIN 249

Neurotrophic factor

neurone development in trigeminal system: DAVIES

Supplement 175**Neurulation**

in chick and mouse: MARTINS-GREEN 687

Ng-CAM

neurone-sensory cell interaction during otic

development: VAN DE WATER **Supplement 185****NGF (See Nerve growth factor)****Nicotine**

catecholamines in hydrozoan planulae: KOLBERG &

MARTIN 249

Northern hybridization

pepsinogen gene transcription in chick: HAYASHI, YASUGI

& MIZUNO 725

Nose**mouse**development in *Small eye* mutant: HOGAN ANDOTHERS **Supplement 115****Nuclear assembly**in *Xenopus* cell-free extracts: HUTCHISON, COX & FORD

553

Nuclear localization

of proteins in mouse embryo: HOWLETT AND OTHERS

129

Nuclear transplantationinterspecific in *Paramecium*: CHAU & NG 179**Odontogenesis**and neural crest cells: LUMSDEN **Supplement 155****Oocyte****starfish**

effect of maturation-promoting factor: PICARD, LABBÉ

& DORÉE 575

Xenopus

vimentin expression: TANG AND OTHERS 279

Optic vesicle**mouse**development in *Small eye* mutant: HOGAN ANDOTHERS **Supplement 115****Organizer**induction by growth factors and lithium in *Xenopus*:

SLACK, ISAACS & DARLINGTON 581

Organs

homeobox gene expression in mouse: GAUNT 135

Otic placode

tissue interactions in development: VAN DE WATER

Supplement 185**Otic vesicle****chick**

cell proliferation activation: REPRESSA AND OTHERS

87

Palatedevelopment: FERGUSON **Supplement 41*****Paramecium***

interspecific nuclear transplantations: CHAU & NG 179

Parental chromosome

chromosomal determinants and mouse development:

SURANI AND OTHERS 171

Parthenogenone

chromosomal determinants and mouse development:

SURANI AND OTHERS 171

Pathfindingby avian neural crest: ERICKSON **Supplement 63****Pattern****formation**craniofacial development: WOLPERT **Supplement 245**

development of CNS of zebrafish: HANNEMAN AND

OTHERS 49

gene expression in *Drosophila* segment polarity

mutants: MARTINEZ ARIAS, BAKER & INGHAM 157

guidance of motor axons in duplicated chick limbs:

STIRLING & SUMMERBELL 97

in carrot embryo: SCHIAVONE 657

in chick retina: THOMAS & YANCEY 37

in *Dictyostelium* differentiation: WILLIAMS 1in *Ephesia* wing: TOUSSAINT & FRENCH 707

prespore differentiation and cyclic AMP in

Dictyostelium: WANG, VAN DRIEL & SCHAAP 611

retinoid metabolism in chick limb bud: THALLER &

EICHELE 497

sensory bristle cell affinities in *Drosophila*: RIPOLL AND

OTHERS 757

vertebrate segmentation: KEYNES & STERN 413

wingless transcripts in *Drosophila* embryos: BAKER

289

P-element transformation*Drosophila* yolk protein gene transcription: BOWNES,

SCOTT & SHIRRAS 119

Pepsinogen

gene transcription in chick endoderm: HAYASHI, YASUGI

& MIZUNO 725

- Pineal body**
 quail
 multipotency of cells: WATANABE AND OTHERS 17
- Placode**
 otic
 tissue interactions in development: VAN DE WATER
 Supplement 185
- Planula**
 hydrozoan
 catecholamines: KOLBERG & MARTIN 249
- Pleurodeles waltl**
 regeneration, of aneurogenic limbs: FEKETE & BROCKES 567
- Polar auxin**
 transport in carrot embryo: SCHIAVONE 657
- Polar granules**
 in *Drosophila* egg: HAY AND OTHERS 625
- Polyclonal origin**
 of crypt-villus unit in mouse intestine: SCHMIDT, WINTON & PONDER 785
- Positional homologies**
 in *Drosophila* wings: SIMPSON AND OTHERS 391
- Positional information**
 craniofacial development: WOLPERT Supplement 245
 guidance of motor axons in duplicated chick limbs: STIRLING & SUMMERBELL 97
 in male tail morphogenesis in *Caenorhabditis*: LINK, EHRENFELS & WOOD 485
 sensory bristle cell affinities in *Drosophila*: RIPOLL AND OTHERS 757
 vertebrate segmentation: KEYNES & STERN 413
- Presomitic mesoderm**
 somite formation in mouse: TAM 379
- Prespore**
 differentiation
 and cyclic AMP in *Dictyostelium*: WANG, VAN DRIEL & SCHAAPE 611
 regulation by diffusible molecules: WILLIAMS 1
 gene
 repression by DIF: EARLY & WILLIAMS 519
- Prestalk**
 differentiation: WILLIAMS 1
- Primary mesenchyme**
 skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231
 spicule-forming cells in their absence in sea urchin: WRAY & McCLAY 305
- Primordial germ cell**
 analysis of chick germ line development: URVEN AND OTHERS 299
- Xenopus*
 germ plasm after fertilization: RESSOM & DIXON 507
- Proliferation**
 kinetics and cell lineages studied using BrdU: PLICKERT & KROHNER 791
 kinetics and metamorphosis in *Hydractinia*: PLICKERT, KROHNER & MUNCK 795
- Pronuclei**
 nuclear
 proteins in mouse embryo: HOWLETT AND OTHERS 129
- Protein**
 nuclear
 in mouse embryo: HOWLETT AND OTHERS 129
- Proteoglycan**
 extracellular matrix of cornea: BARD, BANSAL & ROSS Supplement 195
 synthesis in regenerating muscle: CARRINO AND OTHERS 641
- Quail**
 embryo
 inhibition of neurone development by mouse NGF antibody: ROHRER AND OTHERS 545
 multipotency of pineal cells: WATANABE AND OTHERS 17
 somite contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69
- Rat**
 homeobox-containing gene, regulation of expression: FALZON & CHUNG 601
 testis
 ultrastructure and fate of Leydig cells: KERR & KNELL 535
- Recombination**
 in transgenic zebrafish: STUART, McMURRAY & WESTERFIELD 403
- Regeneration**
 limb
 in *Pleurodeles*: FEKETE & BROCKES 567
 specific reinnervation: WILSON, JESANI & HOLDER 365
 muscle
 chondroitin sulphate proteoglycan synthesis: CARRINO AND OTHERS 641
 root
 in carrot embryo: SCHIAVONE 657
- Reinnervation**
 specific of axolotl limb: WILSON, JESANI & HOLDER 365
- Replication**
 DNA
 control by *Xenopus* egg extracts: HUTCHISON, COX & FORD 553
 in transgenic zebrafish: STUART, McMURRAY & WESTERFIELD 403
- Reserpine**
 catecholamines in hydrozoan planulae: KOLBERG & MARTIN 249
- Retina**
 chick
 adhesion mechanisms in cell sorting: THOMAS & YANCEY 37
- Retinoic acid**
 craniofacial malformation and cell death: SULIK, COOK & WEBSTER Supplement 213
- Retinoid**
 metabolism in chick limb bud: THALLER & EICHELE 497
 pattern formation in facial primordia: WEDDEN, RALPHS & TICKLE Supplement 31

RNA

- messenger
- collagen in chick limb bud: DEVLIN AND OTHERS 111
- hsp in *Xenopus* tadpoles: KRONE & HEIKKILA 59

Root

- regeneration in carrot embryo: SCHIAVONE 657

Salivary gland

- collagenases and epithelial branching: FUKUDA AND OTHERS 259

Scanning electron microscopy

- of honeybee morphogenesis: FLEIG & SAUNDERS 525

Sea urchin

- embryo
- filopodial traction and gastrulation: HARDIN 317
- skeletogenesis: DECKER & LENNARZ 231
- spicule-forming cells: WRAY & McCLAY 305

Secondary mesenchyme

- filopodial traction and gastrulation in sea urchin: HARDIN 317

Segmentation

- development of CNS of zebrafish: HANNEMAN AND OTHERS 49
- homeobox genes and vertebrate head: HOLLAND **Supplement 17**
- in vertebrates: KEYNES & STERN 413
- somite contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69
- stages of head development: ALBERCH & KOLLAR **Supplement 25**
- wingless transcripts in *Drosophila* embryos: BAKER 289

Segment polarity

- mutants of *Drosophila*: MARTINEZ ARIAS, BAKER & INGHAM 157

Sensory bristle

- cell affinities in *Drosophila* wing blade: RIPOLL AND OTHERS 757

Sensory cell

- neurone interaction during otic development: VAN DE WATER **Supplement 185**

Sensory neurone

- avian
- inhibition of growth by mouse antibody: ROHRER AND OTHERS 545

Sex

- determination
- in *Caenorhabditis*: LINK, EHRENFELS & WOOD 485

Skeletal muscle

- chondroitin sulphate proteoglycan synthesis: CARRINO AND OTHERS 641

Skeleton

- biomineralization in sea urchin embryo: DECKER & LENNARZ 231

Skull

- developmental specification in vertebrates: THOROGOOD **Supplement 141**
- patterning of head connective tissues: HALL **Supplement 171**

Small eye (Sey)

- analysis of craniofacial abnormalities: HOGAN AND OTHERS **Supplement 115**

Somatic embryo

- carrot
- detection of specific proteins: RACUSEN & SCHIAVONE 665
- microamputation, axis elongation and root regeneration: SCHIAVONE 657

Somatomedin

- IGF-II gene expression in rat: STYLIANOPOULOU AND OTHERS 497

Somite

- contribution to vertebral formation: BAGNAL, HIGGINS & SANDERS 69
- vertebrate segmentation: KEYNES & STERN 413

Somitomere

- morphogenesis of head and face: WEDDEN

Supplement 61

- patterning of head connective tissues: HALL

Supplement 171

- somite formation in mouse: TAM 379

- stages of head development: ALBERCH & KOLLAR

Supplement 25**Spatial regulation**

- of homeotic and segmentation gene expression in *Drosophila*: DURA & INGHAM 733

Specification

- homeobox genes and vertebrate head: HOLLAND

Supplement 17**S-phase**

- cells
- after BrdU labelling: PLICKERT & KROIHER 791

Spicule

- skeletogenesis in sea urchin embryo: DECKER & LENNARZ 231

Spicule-forming cell

- in sea urchin: WRAY & McCLAY 305

Spina bifida

- origin of neural tube defects: MARTINS-GREEN 687

Spinal cord

- segmental CNS development in zebrafish: HANNEMAN AND OTHERS 49

Xenopus

- commissural interneurons: ROBERTS AND OTHERS 447

Starfish

- adenosine induces dormancy in blastulae: TSUCHIMORI AND OTHERS 345
- oocyte
- effect of maturation-promoting factor: PICARD, LABBÉ & DORÉE 575

Stomatogenesis

- interspecific nuclear transplantations in *Paramecium*: CHAU & NG 179

Submandibular gland

- collagenase and epithelial branching: FUKUDA AND OTHERS 259

Sympathetic neurone

- avian
- inhibition of growth by mouse antibody: ROHRER AND OTHERS 545

Tadpole*Xenopus*

hsp mRNA levels: KRONE & HEIKKILA 59

tenascinand fibronectin along neural crest migratory pathways:
EPERLEIN, HALFTER & TUCKER 743**Teratogen**craniofacial malformation and cell death: SULIK, COOK &
WEBSTER Supplement 213role in craniofacial disorders: JOHNSTON
Supplement 241**Testis**

rat

ultrastructure and fate of Leydig cells: KERR &
KNELL 535**TGF- β** (See **Transforming growth factor type β**)**Tissue**
